

[0:00] Introducing Ennova, a vertically-integrated supplier of custom-made building envelopes.

[0:06] Originating from the exceptional reputation established by its parent company, Contract Glaziers, Ennova is defining a new direction in curtain wall design and manufacturing services across North America.

[0:20] Ennova represents the next step in Contract Glaziers' evolution, as a unique, vibrant, and dynamic organization, and is focused exclusively on the supply of innovative and responsible building envelope systems for welcoming light into schools, hospitals, offices, and residences.

[0:40] The essence of Ennova's strength resides in our unparalleled expertise in our drafting, virtual design, and engineering departments. We are leaders in BIM technology and have used BIM as the core of our manufacturing process for over 15 years.

[0:56] Working alongside world-renowned Gehry Technologies allows us to push the limits of technological advancements in the industry. By streamlining our process and using parametric modelling, it allows us to create customized and complex curtain wall systems for our clients' architectural vision.

[1:15] Every building envelope produced by Ennova is a unique celebration of sustainability, efficiency, functionality, and design, and our deep-rooted commitment to evolving in parallel with our clients and the industry demonstrate that Ennova will continue to play a pivotal role in shaping the built environments across North America.
